

DPT SWIMMING POOL LIGHTING TRANSFORMERS

Safety Isolating Transformers conforming to EN61558-2-6 mainly for use with swimming pool lighting.

The Primary winding is rated at 230V-50/60Hz, has a replaceable fuse and has several tapings to allow for 13V, 14V, 15V and 16V outputs. This variation in output voltage compensates for the voltage-drop in cable from transformer to lamp fitting.

SPECIFICATIONS:-

- IP00,
- ta40/B,
- Insulation Class B,
- Dip Impregnation,
- Mounting brackets to DIN41307,
- Nylon bushes fitted for lower core loss and higher efficiency.

TYPE	Watts	A	B	C	D	E	F	KG
