

# PTN300 SWIMMING-POOL-LIGHTING TRANSFORMERS

**IP65**

Safety isolating transformer, 400VA, IP65, conforming to EN61558-2-6 for use with 300Watt – 12V swimming-pool lighting.

Transformer is resin-encapsulated into a thermal-plastic case and has incorporated a replaceable fuse and thermal protection against overloads and short-circuits.

The Primary winding is rated at 230V-50/60Hz. and has several tapings to allow for 12V, 13V and 14V output voltage variation. This variation in output voltage compensates for voltage-drop in cable from transformer to lamp.

As standard this product is supplied with glands for entry of input and output cables. Optional input and output cables with plugs or connectors are also available on request.

## **SPECIFICATIONS:-**

TYPE	VA	OUTPUT	LENGTH x WIDTH x HEIGHT	WEIGHT
PTN300	400	12/13/14V	152mm. x 172mm. x 110mm.	5.8 Kgs.

Other ratings and voltages can be supplied on request.
